

INDION[®] Eco MBR

Ion Exchange has pioneered the concept of membrane bio-reactor in various configurations and operating mode for industrial and municipal applications. We have customised INDION Eco MBR technology for requirement of households and smaller capacities.

INDION Eco MBR is an extension of the proven membrane bio-reactor process designed to treat smaller capacities of effluent while producing high quality treated water for discharge and reuse without use of chemicals.

In this biological process the membranes are submerged, which aid in removal of suspended matter from activated sludge; thereby consistently producing treated water with highest possible contaminant reduction.

Features

- Modular construction & design
- Single packaged unit with negligible civil construction
- Extremely compact, requires 25% of a conventional system
- Low energy consumption, max 3 kw/h for filtration
- Up to 6 log (99.9999%) removal of total coliform
- No chemicals required during treatment

Advantages

- Compact, easy to operate
- Extremely low operating cost
- Simple self-maintained system

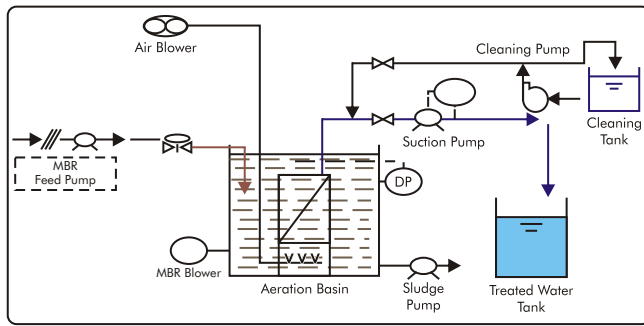

Applications

Ideal for

- Individual homes
- Bungalows
- Transit camp
- Labour colony
- Construction site
- Any decentralised effluent treatment facility

Typical Treatment Scheme

Typical Water Characteristics:

(Domestic Effluent)

Parameters	Inlet (ppm)	Outlet (ppm)
COD	: 300 - 400	50
BOD	: 150 - 300	10
TSS	: 200 - 250	<5
Oil & Grease	: <10	Traces
Heavy Metals	: Nil	-

*With appropriate biological design and/or chemical addition.

INDION Eco MBR is also suitable for treating industrial effluents. The treated water characteristics may vary & can be established after piloting.

Standard Module Specifications **

Modules Model Name		INDION Eco MBR 5	INDION Eco MBR 10	INDION Eco MBR 15	INDION Eco MBR 20
Standard flow (m ³ /day)		5	10	15	20
Housing Size	Width (m)	1	1	1	1
	Length (m)	2.15	3.15	4.15	5.80
	Height (m)	1	1	1	1
	Height with hand railing & platform (m)	2.9	2.9	2.9	2.9
Working Weight (kg)		4500	6500	8700	12000
Material of construction	Housing	MS epoxy coated			
	Piping	CPVC			

** Primary specifications for domestic effluent, case specific for industrial effluents.
