GRUNDFOS 

## GRUNDFOS – PEERLESS PUMPS

Grundfos Group had acquired Peerless Pump Co., a US-based pump manufacturer & a leader in manufacturing FM/UL listed Fire pumps systems as per NFPA 20, in 2007.

## FM APPROVED & UL LISTED PUMPS (NFPA 20)

The Grundfos-Peerless Pump Fire pump units & systems deliver superior fire protection to facilities world-wide. For over 75 years Peerless pump has been offering complete service from engineering assistance to in-house fabrication to field start-up. Products are designed from a broad selection of pumps, drives, controls, baseplates and accessories. The skid mounted systems from Peerless confirm to NFPA20.

## Features:

- Completely factory assembled.
- Pump sets comply with NFPA 20 & local NBC / TAC guidelines.
- Pump, driver and controller mounted on common base.
- Tailor made systems include accessories, fittings, and layouts meeting customers' specifications.
- Eliminates the need for separate mounting surfaces thereby saving a lot of space.
- Reduced foundation works.
- Single supplier responsibility- units are fully assembled at the Grundfos factory, prior to delivery.
- In-house engineering and design expertise to ensure design requirements are realized.
- 'Plug-and-douse' system - Faster and simplified installation and handling

## Suitable for:

- High rise commercial buildings
- Hotels and Resorts
- Residential apartments
- Multiplexes
- General industry.

A wide range of approvals
